

The Federation of Engineering Institute of Asia and the Pacific (FEIAP) and NCDR corporate the training for young engineers

May, 2024; New Taipei City, Taiwan

The Federation of Engineering Institute of Asia and the Pacific (FEIAP) held its 32nd General Assembly, the 7th Convention and 1st Youth Talent Innovation Competition in Taiwan. Among them, on May 2, a team of international young engineers led by Chairman Richard Moh of MAA arranged a half-day course to visit NCDR to understand and learn the development and application practices of the technology for disaster risk reduction in Taiwan.

NCDR Director Hongey Chen welcomed the young engineers' visit to NCDR, and appreciated MAA for its in-depth cultivation of the young generation and for expanding the social responsibilities that engineers should have. Dr. Wei-Sen Li introduced that how science and technology researches applicated in disaster risk reduction in Taiwan, and how public and private organizations corporate to response when disasters occurred.
